

YOUR FUTURE

AT CAMOSUN COLLEGE

VICTORIA | BRITISH COLUMBIA | CANADA

YOUR ENVIRONMENT

A high-angle photograph of two kayakers on a clear, turquoise lake. The kayaker in the foreground is wearing a yellow life vest and a white cap, paddling a yellow kayak. The kayaker in the background is wearing a red life vest and a blue cap, paddling a red kayak. The water is exceptionally clear, showing the sandy bottom and some rocks. In the distance, there are several small, forested islands under a clear blue sky.

Victoria, BC is recognized as one of the world's best small cities to live in. Its unique location on Vancouver Island, comfortable size, urban culture, surrounding nature and mild climate are just a few of the reasons that people visit from around the world.

Travelling from Victoria (By plane)

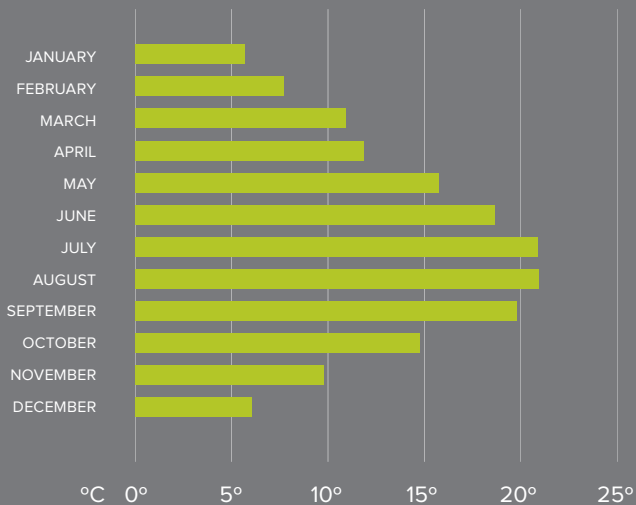

Vancouver	25 minutes	New York	5.5 hours	Hong Kong	13 hours
Seattle	35 minutes	Tokyo	10 hours	Sao Paulo	16 hours
San Francisco	2.5 hours	London	11 hours	Delhi	18 hours
Toronto	4.5 hours				

Victoria Fast Facts

- » Capital city of BC
- » Population = 350,000
- » 3,500,000+ visitors each year
- » 2nd largest city in BC, 13th in Canada
- » 9.7 days of snow per year – lowest in Canada
- » Vancouver Island is the size of Holland or Taiwan
- » Famous Victorians: Steve Nash (NBA star), Nelly Furtado (singer)
- » Sister cities: Khabarovsk, Russia; Napier, New Zealand; Morioka, Japan; Suzhou, China

YOUR SCHOOL

Why choose a college?

www.bccolleges.ca/impact

Camosun College is a leading public community college in Canada, located in one of North America's most beautiful cities – Victoria, British Columbia (BC), Canada.

Camosun is the largest college in BC and has been providing high-quality post-secondary programs and student-life opportunities for more than 40 years.

We have two modern campuses – Lansdowne and Interurban – both located in park-like settings. Each campus offers well-equipped classrooms, a library, athletic facilities, dining services and many other student spaces and resources.

Why should you choose Camosun?

- » Quality – provincial, national and international recognition
- » Value – high-quality Canadian public education at affordable tuition rates
- » Service – 1,000 faculty and staff, 19 dedicated to serving international students
- » Small Classes – average class size is under 35 students; average ESL class is 15 students
- » Pathway Options – for employment or further studies at BC's top research universities

Camosun Facts

- » Over 600 international students representing 55 countries
- » 12,500 students
- » 2 modern campuses 20 minutes apart
- » 91% of graduates are working or in further studies within 6 months

YOUR FUTURE

Off-Campus Work Permit

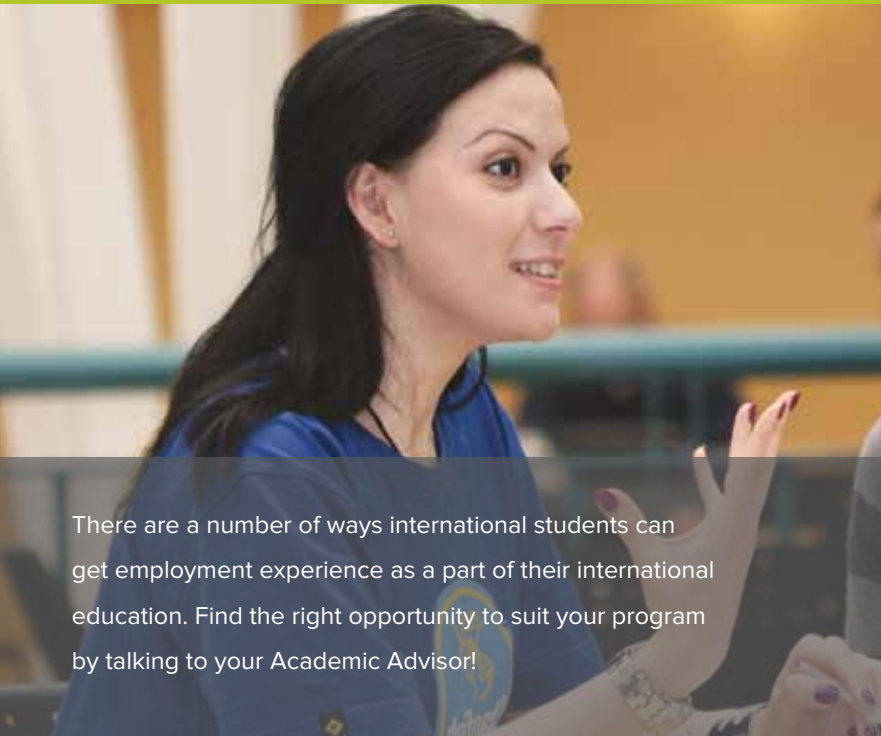

International students studying in full-time academic programs are eligible to apply for an Off-Campus Work Permit which allows students to work a maximum of 20 hours per week while attending school.

Post-Graduation Work Permit

Once students have completed their Canadian program, they may apply for a Post-Graduation Work Permit which will permit graduates to remain in Canada and work in their fields for a maximum of three years.

Co-operative Education and Internships

Co-operative education enables students to connect their classroom studies to the real world by gaining work experience related to their program area. Co-op students function as employees of the co-operating employer organization and are normally paid at market rates. Students pay tuition and receive college credit for the work term, and they are required to submit assignments demonstrating their achievement of academic, professional, and personal learning objectives. Studies show that co-op students enjoy higher academic achievement and motivation and graduate with higher employment rates and earnings.

There are a number of ways international students can get employment experience as a part of their international education. Find the right opportunity to suit your program by talking to your Academic Advisor!

ACCESS

The Camosun College School of Access is home to programs in English as a Second Language and academic upgrading. Students who wish to study at Camosun and who require additional academic upgrading or language training will start their studies in the School of Access.

Offering eight levels of ESL ranging from beginner to academic English preparation, Camosun has a course for everyone. Take courses one at a time or grouped to obtain English language certificates and attend Camosun's graduation ceremony. You can also take ESL courses that provide direct entry to academic and career programs leading toward a diploma or degree.

- » Start in January, May, or September
- » Up to 20 hours of class/week; 4 hours of class time/day
- » Up to 5 hours of labs/week
- » ESL electives and IELTS preparation course available

English as a Second Language (ESL)

Camosun ESL programs help you become more confident listening, speaking, reading and writing in English. Our instructors are highly qualified and committed to providing a friendly, and caring, college learning environment. We provide English and Math Help Centres staffed with instructional assistants and multi-media computer labs with state-of-the-art language learning programs to support your studies. Camosun ESL programming is integrated with the campus community which means that ESL students attend classes and use the same facilities as college program students. For this and many other reasons, Camosun ESL students progress in their language studies and are ready for academic programs in a timely fashion.

Take English as a Second Language and university-level courses at the same time!

Camosun offers students registered in the highest level ESL courses the opportunity to co-register in a variety of courses including university transfer, business, health, and technology. In discussion with their academic advisor, students can choose from a broad range of courses in planning their academic program.

Academic Upgrading

Camosun also offers academic upgrading in a progressive stream through Fundamental, Intermediate, Advanced and Provincial levels. Students may take academic upgrading courses in English, mathematics, and sciences (including biology, chemistry, and physics) to complete admission requirements for a program at Camosun College or other post-secondary institutions.

ARTS & SCIENCE

The School of Arts & Science is dedicated to delivering quality programs and instruction. Camosun students benefit from small classes and ongoing engagement with dedicated and experienced faculty members. In the School of Arts & Science students can begin their university studies and/or complete a diploma or an associate degree in a learning environment that fosters student success and that is committed to instructional excellence.

- » Complete up to two years of Arts & Science studies transferable to universities in a wide range of disciplines.
- » Two-year associate degrees in Arts & Science are available either as general or discipline-specific options.
- » College Preparatory courses provide a strong foundation for students to enter career, technical, trades, and university Arts & Science programs. These courses are designed to meet the admission requirements of post-secondary programs. Upgrading courses can be taken concurrently with some university transfer courses.
- » Work experience is a mandatory component of selected programs and optional for others. Students choosing co-operative education or internship have found the work experience to be a value-added element in their overall education.

Careers in science, engineering, education, medicine, writing and research all begin with arts and science courses.

University Transfer - Arts & Science

Start your bachelor degree in Camosun's University Transfer Program

Students completing a four-year bachelor degree can complete half of it – up to two full years – at Camosun. University Transfer is seamless and straightforward; the courses offered at Camosun are the same in content as those offered by the larger universities. As a transfer student, you will have a great deal of flexibility to develop an education plan that's exactly right for you. With professional advice from Camosun's faculty and academic advisors, you will be able to make informed decisions and select the courses you need to achieve your educational and career goals.

- » Smaller classes – 40 students is a BIG class at Camosun. Compare that with 300, 400 or more at many universities!
- » Lower tuition fees – save as much as 30% over two years
- » Great instructors – they know their stuff and love to teach
- » Personal attention - you're not just a number; your instructors will know your name
- » Classmates who share your interests – you've all chosen to take the same class for a reason
- » Admission is based on relevant prerequisites – not your overall grade point average
- » Services to help you succeed – academic advisors, career counsellors, math and English help centres, student clubs – and it's all included in your tuition fees!

Camosun Pathway to University of Victoria

Camosun College students who wish to attend the University of Victoria will be guaranteed admission to the University of Victoria humanities, science, or social sciences faculties if they:

- » Complete between 8 and 20 Camosun College university transfer courses; and
- » Achieve a Grade Point Average of at least 2.0 ("C") on the most recent 8 courses in your Camosun studies.

For complete information on transfer credit recognized from Camosun to the University of Victoria, please visit www.BCtransferguide.ca and consult an Academic Advisor.

Last year more than 750 Camosun College students successfully transferred to the University of Victoria making it the strongest transfer relationship in the province!

BUSINESS

At Camosun College's School of Business, our mission is to help you develop the knowledge, skills and values necessary to succeed in a changing business world. Our programs are designed with you and your future in mind, providing flexible learning options that work for you and that find you work when you're done. We focus on the practical as well as the theoretical applications of what you learn to give you skills in demand by employers. Many of our programs are also designed to progress into other programs, degrees or professional designations. We pride ourselves in producing graduates who have effective problem-solving, communication and leadership skills along with the technical skills and knowledge needed to be successful in a changing business environment.

UNIVERSITY TRANSFER

– Business, Commerce, Economics

The School of Business offers the highest degree of flexibility for undergraduate business studies. At Camosun, you can study a full, four-year Camosun-awarded Bachelor of Business Administration degree or choose university transfer pathways in business, commerce, or economics and complete your bachelor degree in one of the pathway universities including the University of Victoria, University of British Columbia, Simon Fraser University and many other top Canadian universities. Many students have started their studies at Camosun and transferred to university to complete their bachelor's and master's degrees in business and commerce, or economics. Contact the School of Business for complete information on university transfer requirements and course selection.

- Camosun College offers all required and recommended courses for admission to university business and commerce programs in BC and many other top universities
- You can choose electives from a wide selection of university transfer courses
- Our courses transfer to many universities in BC and Canada
- Your university studies in economics at Camosun are guaranteed to satisfy the requirements of all universities in BC for years one and two of their bachelor degrees in economics.
- You can choose to apply to a university business or economics program after your first or second year at Camosun.
- We organize on-campus information sessions with representatives of university business, commerce and economics programs
- The School of Business has many projects, events and initiatives which help you build leadership skills, volunteer experience, exposure to local culture
- Your academic achievement and community involvement make you eligible for School of Business awards and recognition.

The School of Business offers university transfer courses in the following disciplines:

- Accounting
- Business
- Economics
- Finance
- Marketing

HEALTH & HUMAN SERVICES

The School of Health & Human Services offers a broad range of programs to meet the needs of today's health care workforce. A variety of clinics and agencies become the "living laboratories" where supervised practice encourages learners to develop the values and competencies required for health and human service positions. We are assisted by program advisory committees to maintain the high standards necessary for accreditation by licensing agencies and to promote employment of graduates. Graduates may transfer with advanced standing into related health and human services programs or pursue further education and the university level.

PISE: The Pacific Institute for Sport Excellence

Located on Camosun College's Interurban campus, the Pacific Institute for Sport Excellence endeavors to create a dynamic learning and training environment that seeks to advance the development and success of Canadian sport. Offering world-class fitness, athletic, and educational facilities, PISE is the heart of Camosun sport programming.

PISE and its partners are led by a world class team delivering innovative education and applied research, expert driven services and programs, sport science and medicine, and leading edge facilities for athletes, coaches, students and the wider community.

TRADES & TECHNOLOGY

Camosun technology programs focus on both employability and preparation for further studies. By completing a Camosun diploma in an engineering technology or computer discipline, students receive hands-on relevant applied skills that are in demand in the workforce.

Each program offers the opportunity for students to complete a co-operative education or internship during their program which promotes real-world application of the skills obtained in the program and aids in obtaining employment post-graduation.

Civil Engineering Technology

This diploma program will stress the use of microcomputers in the solution of civil engineering problems. Students are introduced to computer-aided-design and drafting techniques and computer-based design systems for urban planning, structures, highways, water and water/waste management and all aspects of project management. Surveying on state-of-the-art equipment is also included.

Computer Systems Technology Diploma

The principles taught include problem definition, analysis, design, selection and implementation, decision-making and continued maintenance, diagnosis and improvement of the resulting hardware and software solution. The Computer Systems Technologist will be self-sufficient in a small system environment and be effective in a larger enterprise.

Electronics & Computer Engineering Technology – Renewable Energy

Graduates will have a broad knowledge of both electronics and computer engineering systems that enable them to embrace high technology in all its forms, as well as support industry in maintaining current products and systems and in creating the products of the future. Students will also take courses in the control and drive systems of electrical motors and will directly apply electronics technology to the renewable energies area.

Mechanical Engineering Technology

This program is designed to produce graduates who have a broad knowledge in science and engineering as they apply to the design, development, manufacture, marketing, operation and maintenance of machines and mechanical devices. The program culminates with students working in teams to conceptualize, model, fabricate, assemble and document a mechanical project which is then publicly showcased and demonstrated.

YOUR HOME

Housing Services

Finding a place to live is one of the most important decisions you make when you move to a new city. Most international students who are new to Canada choose our Homestay Program to help them get to know Victoria and Canadian culture. If you prefer to look for private accommodation, our Housing Coordinator can help.

Homestay Program Features

- » A private, furnished bedroom with study desk
- » Daily meals
- » Laundry facilities, telephone, other shared amenities
- » Airport, ferry or bus terminal pick-up when you arrive
- » All host families inspected and approved by Camosun College Housing Coordinator
- » Homestay student orientation and support during your stay

On-Campus Services

- » Camosun College Students' Society
- » Fitness and Recreation facilities and programs
- » Cafeteria and food service options
- » Bookstore
- » Social activities
- » Volunteer opportunities
- » Campus newspaper

International Student Services

International students at Camosun College benefit from specialized service and support at Camosun International (CI). CI is your home while you study here.

Our 19 staff are here to help you succeed. They will help you with:

- » International Admissions – application, study/work permits
- » International Advising – academic planning, registration
- » International Counselling – help with stress and personal issues
- » International Student Orientation – learn about Camosun and Victoria
- » Housing Services – Homestay, private accommodation

Peer Connections Program

This is a program that connects current students with new international students individually or in small groups to deal with concerns or challenges they may have:

- » Living in a new culture
- » Adjusting to college life
- » Getting connected with friends

YOUR FINANCES

The following reflects the costs for one academic year (2 semesters) plus associated living costs unless otherwise noted. All prices are reflected in Canadian dollars. This is for informational purposes only; students will be assessed their fees by their program and enrolment upon admission. Not all program fees are listed here; please consult the website for a more comprehensive list of program fees. The cost of living recommended is for homestay. Off-campus will be more expensive.

Your Next Steps

Applying to Camosun College is easy. Go to www.camosun.ca/international/students/apply.html for our application form and instructions on what to do next.

Admissions Information

Camosun College entrance requirements for academic programs are as follows:

1. Successful completion of BC secondary school graduation or the equivalent from another education system OR be 19 years of age on the first day of the academic program

Successful completion of secondary school must be demonstrated through the submission of official transcripts issued by the appropriate authority showing the student's last three years of secondary school showing the graduation credential awarded.
2. Meet the English proficiency requirement. English proficiency can be demonstrated as follows:
 - » Canadian high school English 12 with final grade of C+ or better
 - » An official, verifiable academic IELTS result of 6.0 with no less than 5.5 on each band
 - » An official, verifiable TOEFL iBT result of 83 with no less than 20 on each skill section**Don't meet the English requirement? Camosun can help! Please consult an advisor.*
3. Present program-specific requirements where needed – consult the website for more details.

There is a place for you at Camosun! With extensive English language support, academic upgrading and pathways to Canadian universities and employment, there is something for everyone!

How to apply and receive your offer of admission

1. Submit the application for admission along with all supporting documentation (transcript, test scores, etc.) and the non-refundable \$100 application fee to the Camosun College International office.
2. Admissions officers will review your completed application and, if you meet the requirements for admission to the program, will send you by email a Camosun College Letter of Eligibility.
3. The Letter of Eligibility will also include an invoice for your tuition deposit to confirm your acceptance of a place at Camosun College. Payment of the deposit is required to obtain the official Letter of Admission which is required to obtain a study permit (and entry visa, where needed). The tuition deposit is non-refundable and indicates your commitment to Camosun College.
4. Receive the official Letter of Admission, submit your application to the local Canadian mission for your study permit (and entry visa where necessary), and make your travel arrangements to come to Canada!

Deadlines

Camosun College does not have any official deadlines for applications. Students should note that some high-demand programs operate on a “first-come, first-qualified, first-served” basis meaning that those students who apply early and meet the entrance requirements will be offered places.

Recommended* deadlines for admission

	STUDENTS OVERSEAS	STUDENTS IN CANADA
Fall semester	July 15	August 1
Winter semester	November 15	December 7
Spring semester	March 15	April 15

*Deadlines are recommended and may be adjusted based on program capacity and demand. Students who miss the recommended deadlines are still encouraged to contact the admissions office to discuss options.

Documentation

Students must submit official and complete transcripts of all education completed prior to studying at Camosun College. This includes secondary school and any previous college or university studies. English testing results should also be submitted in official form.

ESL and UT Courses at the same time

Students enrolled in senior-level ELD courses are eligible to co-register in University Transfer courses. Those who qualify may complete up to three full UT courses that qualify for credit towards their university degree. Students should speak to their advisor for more information.

Fee Information

Complete details for fees and costs are available at

www.camosun.ca/international/students/fees-costs.html

Working with agents

Camosun College works with a number of qualified agents and partners abroad who provide academic counseling services to international students. Should you choose to work with an agent Camosun recommends that you do careful research to ensure you find the agent or counselor who will meet your needs. If you have any concerns about agents or counselors who represent Camosun College we encourage you to bring this to our attention. Don't meet all the entrance requirements? We can help! Contact an advisor for more information.
